

# **APOLLO REACH HOSPITALS, KARIMNAGAR**

Major relief

**FROM : MY STORY -G. RAMULU (Patient)**

**GOOD MORNING TO ALL.**

I am a 51 year old male as usually I started my routine work, I developed involuntary movements with stiffness lose my consciousness as well after waking up, I had a severe headache neck pain am worried got panic this is the first time I felt these symptoms to my knowledge, there is no history of these symptoms from my childhood.

I am in a confusion to whom to consult, many of my neighbours they visited Apolo Reach Hospitals Karimnagar. I consulted the hospital doctor assured me made me confident he suggested me for a brain imaging then only we can have a good treatment and diagnosis. He confirmed there is a neurological problem.

I am worried if there was a surgical intervention but am managed conservatively am out of my fear thoughts feeling normal after the treatment. My family members and me relieved from a great stress.

I thank you to my Doctor, Team and Apollo Reach Hospitals, Karimnagar.
